ACCESS CONTROL SOLUTIONS

1700 ADD-ON DIRECTORIES & FLUORESCENT LIGHT KITS

ADD-ON DIRECTORIES The 1701 and 1702 non-lighted directories are typically used in low capacity indoor applications. These directories provide a 1/4-inch slot to allow resident names to be inserted individually. The 1710 lighted directory can be used indoors or outdoors and matches up with the 1802, 1803 or 1810 telephone entry systems. Use a word processor to create your own directory for this unit.

FLUORESCENT LIGHT KITS provide increased lighting for both telephone entry systems and add-on directories. The 1720-080 is typically used with surface mount telephone entry systems and the 1710 add-on directory. The 1720-081 is typically used with the 1701 and 1702 add-on directories.

1710 Surface

13" H x 11.25" W x 4.75" D
 325mm H x 281.25mm W x 118.75mm D
