

ULTRA II MOTHERBOARD

LETS YOU USE UP TO THREE ULTRA II
DETECTORS WITH 1 HARNESS

Applications

The Ultra II Motherboard may be used in any operator where you need to utilize up to 3 access control devices.

- Compact 4" x 4" size
- Allows for simple plug in of any combination of 3 ULTRA II or VMD detectors.
- Surge suppression on all 3 loop inputs
- Individual outputs for each detector
- 12 Pin polarized connector
- Use 3 access control devices in the same space as 2 regular loop detectors.

ULTRAII-MB

- The ULTRAII-MB will allow you to wire once for up to three different access control devices.
- You can place three ULTRA II D-TEK units into any operator that uses relay inputs to activate. And in future developments EMX will be announcing additional access control devices that will simply "Plug-and-Play."
- The benefits of using the ULTRAII-MB are:
 1. Quicker installation
 2. Single power source connection
 3. Built in input protection on each device
 4. Easy upgrade or switch out to new devices
